# Message from our Owner

I created **Yo-Yo DESK®** in 2015 specifically to market high quality standing desk solutions at prices affordable to everyone, everywhere. Within 3 years Yo-Yo DESK® has become the best-selling UK brand in its category and we are now selling in 32 countries.

As founding director of Active Working CIC, I also spearhead thought leadership and advocacy on the health benefits of sitting less and moving more in the office workplace. Active Working® CIC operates "Get Standing®" campaigns in Great Britain, Australia, USA and Canada. These campaigns have created the dramatic surge in awareness and understanding of the health risks connected with sedentary working of office workers.

I am very proud to have commissioned the first global **expert statement** on standing & light activity time for office workers (with support from Public Health England). These guidelines were published by the **British Journal for Sports Medicine** in June 2015 and serve as a benchmark for subsequent research projects.

Active Working® is applying for charity status in 2019 and will continue to provide an integrated evidence-based approach to breaking-up and reducing sedentary behaviour amongst office workers.

**I remain committed to building Yo-Yo DESK® into the world's favourite standing desk brand.**

We look forward to helping you and your colleagues keep moving with Yo-Yo DESK®.
